

When you treat patients with complex endocrine diseases in your primary care office, care can't wait. Bring your questions and your cases to peer-led, online sessions. Gain new information, support and the confidence you need to retain complex cases in your practice.

Project ECHO is changing the paradigm of continuing medical education in New Jersey. It's a new approach to CME; one that removes silos and gives you direct access to specialty knowledge and evidence-based answers.

YOUR TIME IS IMPORTANT.
YOUR KNOWLEDGE IS CRITICAL.

Project ECHO for Complex Endocrinology is straight-forward, specific and applicable. At every session we explore active endocrine challenges from multiple perspectives. We each hold a piece of the puzzle and everyone is welcome to share experiences.

In our Endo ECHO, you'll meet practitioners from across the state through a simple video interface and become part of a collegial community. You'll have a comfortable place to return and will build on what you're learning, month to month.
